

Our Philosophy of Care

We strive to deliver kind, compassionate, skillful, and knowledgeable care to **women of all ages**: early adolescents, teenagers, young adults, reproductive aged women, and women both in and beyond menopause. We want all of our patients to feel well cared for.

Dr. Victor P. Trinkus
MD, M.S., F.A.C.O.G.

Dr. Gail Goldberg
MD, M.S., A.C.O.G.

Caring for Women of All Ages

-  Kind
-  Compassionate
-  Knowledgeable
-  Skillful

Our Services

Gynecologic Consultation

We specialize in helping women with these and other gynecologic issues.

- Heavy, irregular, or painful menses
- Postmenopausal bleeding
- Chronic pelvic pain
- Endometriosis
- Ovarian cysts or tumors
- Uterine fibroids
- Sexual problems: difficult or painful intercourse, lack of desire, problems achieving orgasm.
- Menopausal symptoms: hot flashes, night sweats, insomnia—hormonal and non-hormonal treatment
- Urinary or fecal incontinence
- Genital prolapse: cystocele, rectocele, uterine prolapse.
- Vulvar skin disorders
- Vaginal infections and dysplasia
- Premenstrual Dysphoric Disorder (PMS)
- Polycystic Ovary Syndrome
- Abnormal Pap smears

Note: We also offer preconception counseling and basic infertility treatment.

Women of all ages routinely juggle a myriad of activities and responsibilities. Balancing work, school, family, friendships, and intimate relationships often leaves little time left for rest and contemplation, much less for focusing on maintaining and enriching health, or for dealing with medical issues. We appreciate the unique constellation of pressures that women must manage. Our expert, current, efficient, and compassionate care is intended simultaneously to suit the rhythms of the contemporary woman's life, and to provide a warm and welcoming environment centered on her needs and concerns. All women—from adolescence through the postmenopausal years—deserve the attentive and expert medical care that will allow them to thrive at every age. Our mission is to provide this care.

Well Woman Care

We work to enhance a woman's health at every stage of her life.

- Breast cancer risk assessment, screening, and prevention
- Risk assessment and screening for skin, colon, uterine, and ovarian cancer
- Cervical cancer screening and prevention, including Gardasil® vaccinations for HPV prevention
- Detection, prevention, and treatment of osteopenia and osteoporosis.
- Risk assessment and screening for cardiovascular disease, diabetes, and thyroid disease.
- STD Testing and treatment
- Contraceptive counseling

Gynecologic Surgery

Careful, skilled, effective, minimally invasive treatment.

When surgery is your choice . . .

Vaginal Surgery

- Pelvic reconstructive surgery; prolapse repair
- Hysterectomy
- Stress incontinence procedures

Cervical Surgery
